In a petition dated 17-12-1942(copy enclosed)the fishermen of the locality pray for the teaching of English in the school. The Deputy Inspector of Schools, Udipi Range supports their prayer. Pupils who pass out of Standard V from the Fisheries school can if they wish continue their studies further by joining the Yerumal Board - Higher Elementary school a mile and a half away.

A trained teacher of the Secondary grade will have to be employed if English is introduced. At present three teachers of Higher Elementary grade are employed vide Annexure II item 8 to G.O. No.1169 Development dated 2nd April 1943. I suggest that the post of the Headmaster be converted to Secondary grade with effect from 1st July 1943. The additional expenditure which will amount to Rs.71-8-0 in 1943-44 as per details below can be met from the provision made under "Pay of Establishment under F.Fisheries Schools."

	Rs. A. P.
Average pay of a Secondary grade teacher (30-3/2-45-1-55)	42--3--0.
Minus average pay of a Higher Elementary grade teacher (23-2/2-45). ...	33--4--0.
	8-15--0.
Therefore for eight months from July 1943 to February 1944 ...	Rs.71-8-0.

Director of Industries and Commerce.

Copy of petition dated 17-2-1942 from Sheena K.Suvarna and 49 others.

We the fishermen of Yerumal most respectfully beg to place before your kind consideration the following facts and early favourable orders.

1. The Yerumal Fisheries school is situated in the midst of two general schools where English is taught our pupils attending the Fisheries school have not the privilege of learning English as no provision is made to teach English in the said school,with result that our pupils will find very difficult in their higher studies,when English will be one of the important subjects.

2. Many of our relatives are employed at Bombay. We receive letters from them in English. When our pupils do not know even to read and write the address have to seek the help of others knowing English leaving aside our work. If our pupils are given some knowledge in English at least of understanding a letter and the address,we would have been much thankful to the department.

3. When dealing with fishing industry,English is the chief language of correspondence and communication,our business is mostly directed to foreign markets like Colombo and Bombay. In our business too, no other language than English will be of any use to us. If our pupils are given the benefits of studying English along with other subjects in the school we will be able to some extent to carry on our livelihood.

Therefore we humbly request your honour be pleased to appoint a Secondary grade teacher and make provision of teaching English in the Yerumal Fisheries school at an early date.
